

#### **About Us**

History

# Founded in 2004 with a mission to create the perfect bag for modern day living.

We were climbing the corporate ladder in London and couldn't find a work bag that met our needs: We found fashion bags that were hopeless when it came to being reliable, protecting your devices or organizing your life. And ugly standard issue black (laptop) bags that literally NO-ONE wanted to use.

And so the idea for KNOMO was born with a mission to create the perfect bag. One that

was designed from the inside out to meet the needs of modern life on the move.

Using durable technical materials, made ethically and to be stylish so that it could be taken anywhere.

Since our entrepreneurial journey began, we have sold more than a million bags, are sold in 100+ countries and are motivated by the amazing feedback we receive from happy customers around the world.

As modern life evolves, the original need identified in 2004 is even more relevant. But work is no longer 9-5 and so the mission to create the perfect bag has broadened to reinvent all accessories required for modern day living.

For people Whochoose the extra ordinary in life.

# Knowledge

+ Every Defail

Over I5 different components go into the making of every KNOMO.

I5+ years experience ensuring that every component is considered to be highly functional & durable. From technical fabrics to luxurious leathers and custom designed hardware.

# Knowledge

# + Responsible

We create products ethically to be useful and durable allowing our customers to lead responsible lives.

We personally source every component to ensure every material used is non harmful. We are actively seeking new sustainable materials that don't compromise durability.

We ensure every KNOMO is made in humane environments. 70% of our production is made in an eco factory in Cambodia.

### KNOWLEDGE

+ Built To Last

Over the years we have painstakedly innovated our manufacturing & quality control practices to ensure every KNOMO performs and is built to last.

We apply a rigorous "luggage" construction and quality standard.

We test & track each and every KNOMO made through MYKNOMO unique identification.

We make bags to help people defy monotony and break the routine.
