KNOWLEDGE + MOBILITY

Mayfair Luxe: Mini Mount 10", Black

ABOUT

I hated working in a cubicle. I spent the beginning of my career in Durban, Canary Wharf, New York, Zurich and then Reigate. Lovely places but equally uninspiring when stuck in a cubicle.

I started KNOMO to free people from life in an uninspired and repetitive 9-5 workspace that feels like Groundhog Day. Our mission is to build KNOMO into an inspiring business making extraordinary products where our team have the freedom to determine where, when and how they work. Our team works in 17 different cities around the world - none of them stuck in a cubicle.
